

Management and Entrepreneurship in Agriculture (188839)

Nositelj predmeta

[prof. dr. sc. Mario Njavro](#)

Opis predmeta

The course introduces students to the concepts and the development of management and entrepreneurship.

Explain the application of management theory to management of the agricultural economy.

Learn about the nature and importance of entrepreneurship in general and the importance of entrepreneurship in agriculture. By creating a business plan/model, students are introduced to the launch of an entrepreneurial venture.

Način rada

Obveze studenta

Attendance at lectures, exercises and seminars is mandatory.

Students must participate in learning through the e-learning (Merlin) platform.

After each lesson students have an assignment at the Merlin that they have to do until the next lecture.

Seminars are performed in the form of a business model.

Students can access the exam if all the requirements are met.
