

E-marketing for sustainable development (219687)

Course coordinator

[Asst. Prof. Marina Tomić Maksan, PhD](#)

Course description

Internet and other information technologies have created a new framework for development of marketing activities. Within this course students will learn about e-environment and market research in the e-environment, on online consumer behavior, online tools and e-marketing strategies that are used in the context of sustainable development. Case studies approach will facilitate understanding and adoption of the material, while exercises and individual work on creating an e-marketing plan prepare students for practical application of theoretical knowledge.
