

## Master thesis (146075)

### Opis predmeta

Master thesis is an individual written work based on students' own research that is written in a scientific form and implies students' engagement in work that is equivalent to 15 ECTS module. Graduation is usually done during IV. semester and ends with oral defense (presentation and answering the questions).

ECTS: **15.00**

**Sati nastave: 150**

#### Ocjenjivanje

Dovoljan (2):  
Dobar (3):  
Vrlo dobar (4):  
Izvrstan (5):

### Vrsta predmeta

- Graduate studies / [Environment, agriculture and resource management](#) (Obvezni predmet, 4. semestar, 2. godina)

### Opće kompetencije

Master thesis is students' independent task in the area of agricultural sciences and interactions between agriculture and the environment, and sustainable use of natural resources. Student must be able to apply gained knowledge in a form of scientific research work: do the state of art research in the field of interest, design its own research, define research hypothesis and objectives, collect and process data and make some conclusions from the research. Implies broadening the gained knowledge, especially in a domain of scientific methods application.

### Ishodi učenja i način provjere

Ishod učenja	Način provjere
Apply knowledge gained in MS study Define research project: hypothesis, objectives and goals Conduct research independently Use results of other researchers to interpret correctly results from own research Present own research in written form properly Suggest some improvements for similar research Present own research in a form of public (oral) presentation
