

KRMIVA 2022

XXVII MEĐUNARODNO SAVJETOVANJE
27th INTERNATIONAL CONFERENCE

Opatija, hotel Ambassador 1. - 3. June 2022.

FIRST ANNOUNCEMENT!

Zagreb, 14. October 2021.

Dear colleagues,

After a two-year break, Krmiva d.o.o. from Zagreb, once again organizes a long-established international conference about domestic animal nutrition and feed production technology, **KRMIVA 2022**, which is the 27th in a row! If we had not been hit by the SARS CoVid 19 pandemic, this would be the 29th conference, and next year we will celebrate our 30th anniversary.

It is our great pleasure to invite you to join us and participate in the international conference **KRMIVA 2022**, which we will hold from 1st to 3rd June 2022, as well as the last 26, in lovely Opatija city, in the Ambassador Hotel. At the conference, lecturers from Croatia and abroad will share with you the latest scientific and practical knowledge in the areas mentioned above. We hope that you will also participate in the post-lecture discussions and Q&A sessions so that we can hear your thoughts.

Please consign your associates to the **KRMIVA 2022** conference if you are unable to attend the meeting.

The main topics of the conference are:

- ◆ Additives, micro and macro elements in animal nutrition
- ◆ Alternative sources of nutrients in animal nutrition
- ◆ Impact of nutrition on productivity and animal health and quality of animal products
- ◆ Animal nutrition legislation
- ◆ Animal feedstuff and compound feed production and analysis technology
- ◆ Modern technologies in livestock production
- ◆ Free topics

The meeting is open to companies, research organizations, and government agencies that are interested in these themes. We are confident that the most up-to-date information offered, will be extremely beneficial to you, both in terms of practical application and scientific research. After two years, we will finally be able to meet up with our colleagues and friends in person. As a result, KRMIVA 2022 will be more than just informative presentations; it will also be a superb opportunity to spend some of your time with colleagues and friends in pleasant company. Previous KRMIVA conferences' knowledge has already aided many domestic animal breeders and enabled fresh research that will assist us in the future in modern animal production.

Short instructions for authors:

- Authors and working titles (in Croatian and English) must be submitted no later than 31 December 2021.
- The deadline for submitting abstracts (in Croatian and / or English) is January 31, 2022.
- Papers (in Croatian and / or English) should be submitted by March 31, 2022.

Please send all of the above to the following email addresses: zvonko.antunovic@fazos.hr and zjanjecic@agr.hr.

The authors can present their work in one of two ways: orally or on a poster.

The Scientific Committee of the **KRMIVA 2022** conference will choose and organize the papers for oral or poster presentations after receiving them. All accepted papers for the conference can be submitted for publication in the scientific-professional *Journal KRMIVA*. The *KRMIVA Journal* contains instructions for authors, which should be followed. Papers will be published in the order of submission after satisfactory assessment by reviewers and proofreading. The writers will be notified if there are any bad reviews.

Krmiva d.o.o. Zagreb and the European Association of Agronomic Engineers (EurAgEng) are organizing the conference in collaboration with the Faculty of Agriculture – Zagreb and the Faculty of Agrobiotechnical Sciences – Osijek.

For any help and answers to your questions, please contact the email: krmivaconf@krmiva.hr addressed to Mr. Nenad Fuchs, dr.vet.med.

The conference is attended by the following scientific institutions:

Faculty of Veterinary Medicine - Zagreb, Biotechnical Faculty - Domžale, Slovenia, Faculty of Animal Science University of Kaposvar - Kaposvar, Hungary, Faculty of Biology and Animal Science of Wrocław University of Environmental and Life Sciences - Wrocław, Poland, University of Veterinary and Pharmaceutical Sciences - Brno, Czech Republic, Faculty of Veterinary Medicine - Lublin, Poland, Faculty of Agriculture - Sarajevo, Bosnia and Herzegovina, Faculty of Agriculture - Skopje, Macedonia, Faculty of Veterinary Medicine - Sarajevo, Bosnia and Herzegovina, Faculty of Agriculture - Maribor, Slovenia, College of Agriculture in Križevci - Križevci, Slovak University of Agriculture - Nitra, Slovakia, Faculty of Veterinary Medicine - Ljubljana, Slovenia, Faculty of Veterinary Medicine - Belgrade, Serbia, Sapientia - Hungarian University of Transylvania - Csíkszereda, Romania and Institute Ruđer Bošković - Zagreb, National Research Institute of Animal Production in Krakow National Feed Laboratory - Lublin, Poland, Institute of Animal Science - Skopje, Macedonia, Faculty of Veterinary Medicine, Bitola - Macedonia, University of Applied Sciences - Velika Gorica, Institute of Animal Science - Zemun, Serbia, Institute for the State Control of Veterinary Biologicals and Medicaments - Brno, Czech Republic, Central Institute for Supervision and Testing in Agriculture Brno, Czech Republic and Polish Association of Feed Producers - Warsaw, Poland.
