FIRST ANNOUNCEMENT

62nd Croatian and 22nd International

Symposium on Agriculture

Shaping Resilient Agrifood Futures — Bridging Tradition, Innovation and Sustainability

15–19 FEBRUARY 2027

Amadria Park Hotel Jure

★★★★

Šibenik, Croatia

Invitation

It is our pleasure to invite you to the 62nd Croatian and 22nd International Symposium on Agriculture (SA2027), organized by the University of Zagreb Faculty of Agriculture, together with the Faculty of Agrobiotechnical Sciences Osijek, Josip Juraj Strossmayer University of Osijek and numerous esteemed co-organizers. The Symposium will take place from 15 to 19 February 2027 at the Amadria Park Hotel Jure in Šibenik, Croatia, under the theme *"Shaping Resilient Agrifood Futures: Bridging Tradition, Innovation and Sustainability."*

As agriculture faces mounting pressure from climate change, resource constraints and rapid technological change, building resilient agrifood systems calls for scientific excellence and closer collaboration across disciplines. Now in its seventh decade, the Symposium remains a place where researchers, professionals and young scientists from Croatia and abroad meet to exchange knowledge through scientific sessions, invited lectures, organized discussions and poster presentations.

We warmly invite you to join us in Šibenik — by delivering an oral presentation, presenting a poster, showcasing your institution or company, or simply taking part as a participant.

Venue

The Symposium will be held at the Amadria Park Hotel Jure 4*, part of the Amadria Park resort in Šibenik, a historic town on the Dalmatian coast of Croatia. Šibenik is home to the UNESCO-listed Cathedral of St. James and a beautifully preserved old town of narrow stone streets.

Symposium Sessions

1 Agroclimatology, Climate Change and Resilient Crop Production Systems

2 Sustainable Horticulture, Viticulture and Landscape Systems

3 Animal Production Systems, Animal Welfare and One Health

4 Food Science, Quality and Sustainable Bioeconomy

5 Digitalization, Smart Agriculture and Bioenergy Systems

6 Agroecology, Soil and Water Resources Management

7 Agrifood Economics, Markets and Rural Development
